

ASSEMBLY INSTRUCTIONS

Use two people to lift and assemble your new room divider. In just a few minutes, your divider will be ready to provide years of service. To complete the assembly process, only eight bolts need to be installed.

PARTS LIST

One (1) 3/16" Allen wrench
Two (2) 1" x 1" x 28" horizontal legs with casters installed
Two (2) reinforcement plates with hooks
Eight (8) 5/16" button-head bolts
Four (4) lock washers

STEP 1

Hook the reinforcement plate into the two slots in the square caster tube using the hooks.

STEP 2

Place the leg assembly at the corner of the panel, making sure all four holes are aligned. Insert the bolts and tighten them using the included Allen wrench.

STEP 3

Lift the divider from the assembly surface and lower it to the floor at a 90-degree right angle.
